

Pre-Underwriting Security Remediation

Close the gaps that stall coverage. 10 business days. Full documentation.

THE PROBLEM YOUR CLIENTS FACE

- Carrier flags security controls during underwriting — no EDR, untested backups, missing IR plan
- Application stalls or premium increases 25-40%
- Client doesn't know how to fix it or who to call
- Clock is ticking on the coverage binding window

WHAT WE DO

10-Day Remediation Sprint | Flat Fee: \$5,000 - \$7,500 | Client-Direct Billing

Controls We Remediate:

- ✓ **MFA** — Enforcement across all systems
- ✓ **EDR/MDR** — Deployment + config verification
- ✓ **Backup Testing** — Actual restore, not checkbox
- ✓ **Incident Response** — Written plan with roles
- ✓ **WISP** — FTC/IRS compliance documentation
- ✓ **Vendor Audit** — Access + credential review
- ✓ **AI Policy** — Documented governance (2026 req.)
- ✓ **90-Day Plan** — Prioritized remediation roadmap

WHAT YOU GET (THE ATTESTATION PACKAGE)

Bound Attestation Package — Control-by-control documentation ready for your underwriting file

Executive Summary — 1-2 pages your client's leadership will actually read

Maturity Scorecard — Before/after comparison showing remediation impact

90-Day Maintenance Plan — So improvements stick and your client stays insurable

HOW IT WORKS
